theconference sponsorship opportunities

The **UK Technology Innovation & Growth Conference 2008** is a two-day meeting taking place between **Monday 17th March** and **Tuesday 18th March**. The conference provides a thought leadership platform for the most influential figures in the UK technology sector. Addressing the key factors driving technological change in UK businesses, from enterprise IT and mobile communications through to web 2.0, the programme looks at how growth technology companies can seize market opportunities.

The programme will be looking at issues facing CEOs of the country's most enterprising technology companies and what drives their performance, including:

- Leadership
- Growth strategies
- Innovation
- Market dynamics
- Human capital
- Raising finance
- Mergers and acquisitions
- Partnering and alliances

Date: 17-18th March 2008
